Find the Right Access Point for Your Organization

Wireless usage like this is only going to accelerate as Internet of Things (IoT) traffic from billions of devices and new mobile apps hits the airwaves. By the end of 2019 the majority of fixed IP traffic will be Wi-Fi (53 percent), exceeding wired traffic by 21 percent.

How can you keep pace with this surge in Wi-Fi traffic? Cisco 802.11ac Wave 2 access points support the very latest Wi-Fi standard technology.

Transmitting data at speeds beyond 1 Gbps, they provide the performance and functionality you need to support mobility for your customers and employees into the future.

Go beyond 802.11ac. Get the Latest Cisco Aironet Access Points

Best in class 802.11ac Wave 2 access point

Table 2. Introduction of Cisco Aironet 3800 & 2800 Access Points

Cisco Aironet 3800 Series	Cisco Aironet 2800 Series
Industry leading 4x4 MIMO: 3 Spatial Streams (SS) Wave 2 802.11ac access points	Dual radio, 802.11ac Wave 2, 160 MHz
Combined data rate of 5.2Gbps	**2 x 5 GHz: 4x4: 3SS supporting** - SU-MIMO/MU-MIMO -Flexible radio assignment: 2.4GHz, Dual-5GHz, wireless security monitoring, wireless service assurance*, or enhanced location*
HDX technology	Enhanced location using external antennas*
USB 2.0	Internal and external antenna models
Smart antenna connector-2 nd antenna connector	
Gigabit Ethernet and multi-Gigabit Ethernet (1G, 2.5G, 5G) Modularity: Side mount modular	2 x Gigabit Ethernet with LAG
* Post-FCS	

Cisco Aironet indoor access point portfolio
Positioned to capture the 802.11ac Wave 2 transition

Table 3. Features of Cisco Aironet Access Points

1815 Series Small-mid deployments | Mobility express enabled	2x2:2SS | 80MHz | 867Mbps
1830 Series Enterprise-class | Small-mid deployments | Mobility express enabled	3x3:2SS | 80MHz | 867Mbps
1850 Series Enterprise-class | Small-mid deployments | Mobility express enabled	4x4:3SS | 80MHz | 1.7Gbps
2800 Series Mission critical | Mid-enterprise deployments | High density environments	4x4:3SS | 160MHz | 2.4Gbps
3800 Series Best in class | Mid-enterprise deployments | High density environments	4x4:3SS | 160MHz | 2.4Gbps
